Got it. I'll reach out to Chris. We can discuss what makes sense for briefing John on CES. FYI, the briefing we are preparing for you (10/23) is going to cover more than just CES. I'm available today between 2-2:30. Thx

Hi David,

Can you reach out to Chris Hage – he is interested in learning more about the technical aspects of the CES project (i.e., what does the plant/wellhead/injectate look like, etc.). He likes pictures and wants to better understand some of the technical nuances. No need to do a formal presentation – he simply wants to chat about some of the technical aspects informally. He knows that you'll be briefing me on the details in the coming weeks and that we'll invite him to that. I also told John that we would brief him on this facility – consider whether we should just do one briefing for the RA and me.....

Finally, if you have a minute later today, I'd like to give you a quick ring regarding this project – let me know if you have a few minutes between 1:30-3pm.

Thanks in advance!
